

Enex Technologies Named Finalist for the Exporter of the Year 2024 Award

Treviso, IT, 21 March 2025 – Enex Technologies, a leader in the development of sustainable solutions for refrigeration, heating, ventilation, and air conditioning, has been recognized as one of the ten finalists for the prestigious **Exporter of the Year 2024** award by **Confindustria**.

This award, given to Italian companies that stand out for **excellence in growth and innovation in international markets**, reaffirms Enex Technologies' commitment to delivering cutting-edge and sustainable technologies on a global scale.

A Milestone Rewarding Innovation and Global Expansion

Being selected as a finalist highlights the success of Enex Technologies' international expansion strategy, strengthening its presence in key markets with high-efficiency and low-environmental-impact solutions. The company has distinguished itself for its ability to innovate and respond to the evolving needs of the industry, promoting sustainable solutions that contribute to the energy transition.

About Enex Technologies: Enex Technologies is a Climate Tech company born from the ambitious vision of industry veterans and pioneers in natural refrigeration systems, with the aim of transforming the HVACR industry with innovative solutions for the energy transition. Its journey began in the 1930s by producing natural ammonia refrigeration systems, to which CO₂, propane and water were subsequently added as natural refrigerants with low global warming potential. Enex Technologies supplies HVACR equipment installers and end customers such as office buildings, hotels, hospitals, supermarkets, data centers, distribution centers, cold storage warehouses, cold rooms and other industrial applications. Today, Enex Technologies employs over 1,000 people in 12 production sites distributed across 4 countries (Italy, France, Spain and Slovakia). As a participant of the United Nations Global Compact, Enex Technologies is committed to aligning strategies and operations with universal principles on human rights, labour, environment and anti-corruption, and take actions that advance societal goals.
